The Office Furnishings Company

PROJECT SPOTLIGHT

**Bank of Nova Scotia
Corporate Division
Halifax, Nova Scotia**

For 175 years Bank of Nova Scotia's motto has been strength, integrity and service. Bank of Nova Scotia wanted to exemplify their motto more effectively throughout their Corporate Division, which is located in a beautiful historical building in downtown Halifax.

Bank of Nova Scotia Corporate Division

Design: Bank of Nova Scotia Real Estate
Department, ABI

Scope: 3 floors, 27,200 square feet, 117 complete
workstations and 17 private offices
including task and guest seating

Products: Steelcase Wood Veneer Answer Systems,
Steelcase Think, Sensor and Alcove wood
seating, Simo private offices

Project Challenges:

Extensive construction was to occur during the course of these projects affecting the installation of the new workstations and private offices. Employees would be working in the space on weekdays, therefore requiring construction and installations during evenings and weekends. Repeat employee relocations would also be required. With Bank of Nova Scotia Real Estate staff located in Toronto, and the renovations taking place in Halifax, the project had the potential for a logistical challenge.

Working Together for a Solution:

Through our project management process, the ABI Account Manager communicated with the Bank of Nova Scotia Real Estate department in Toronto on a regular basis to manage the logistics of various moves and installation phases. As a result of our combined forces, we were able to implement cost savings accommodations and continue to support the changing needs of our client during these projects. With great attention to detail, project management, design abilities, and a phased installation during the renovation, we were able to successfully carry out a seamless project and installation for the Bank of Nova Scotia.
