TASK

ROTARY TASK CHAIRS

Because you weren't designed to sit,
we design task seating that helps you sit fit.™

The most common workplace injuries can happen while you're sitting down. We're not meant to be sedentary creatures, and prolonged sitting can result in back pain and muscular skeletal disorders (MSDs). The good news is that setting up an ergonomic workstation doesn't have to be complicated – and it's inexpensive compared to managing lost productivity.

Unfortunately, what most people don't know – and don't take the time to learn – is how to adjust their chair so it fits them properly. Iris Sokol, certified ergonomist and health and wellness explains how to sit fit.

VISIT [ALLSEATING.COM/ERGONOMICS/ARTICLES](https://www.allseating.com/ergonomics/articles) FOR MORE TIPS AND INSIGHTS FOR SITTING FIT AND BEING AT YOUR BEST!

IT'S ALL ABOUT YOU®

Unlike other chairs that support you passively, the You chair encourages you to sit actively as you move from task to task.

YOU TOO MIDBACK

With Breathable Back and Fabric Seat
Standard with Black Frame and Base
Model No: 85040-MF-AWK-SS-BHA

Features Canadian content and green chair recognition
Contact your local representative for Search Criteria

YOU MIDBACK WITH MESH SEAT AND MESH BACK

With Breathable Back and Seat
6 Mesh Colours Available
Model No: 84012-MF-AWK-SS-10B-10S

Features Canadian content and green chair recognition
Contact your local representative for Search Criteria

The You frame features an activation dial that causes the mesh to bow and provide the precise support between the lumbar and ribcage, gently lifting you into the proper position. Simply turn the dial to increase or decrease the degree of curve in the mesh.

TAKE YOUR SEAT

From our first chair back in 1982, Allseating has developed one of the broadest line-ups of seating solutions in the country. Whatever your task, we have the seating solution for you.

INERTIA® TASK
