Les teintes de ces échantillons peuvent différer légèrement des échantillons sur métal, le procédé d'impression sur papier ne correspondant pas à la méthode d'application sur métal. En dépit d'un contrôle sévère et continu, nos manufacturiers de peinture ne peuvent pas garantir une constance dans les couleurs, les composants chimiques et les pigments utilisés pour la fabrication des peintures pouvant entraîner des variantes de teinte incontrôlables. Toute autre couleur peut être obtenue sur présentation d'un échantillon. Une couleur spéciale entraîne automatiquement un délai de livraison plus long et peut représenter un coût additionnel. Prix sur demande.

These colour shade samples may differ slightly from metal samples, the printing process on paper being different from the application on metal. In spite of a stringent and continuous paint manufacturing control, our paint suppliers cannot guarantee 100% colour match, the chemical components and pigments used in the manufacturing process of paint entailing uncontrollable colour variation. Any other colour may be matched if a good colour sample is submitted. A special colour will automatically extend the delivery date and may increase the cost of products. Prices are available on request.
