

MEET KUBEBOOTH

ABOUT KUBEBOOTH

Kubebooth was founded because of our core belief that privacy matters!

We believe that everyone should have access to a private space where they are free to be their most authentic selves. That is why we developed our signature Kubebooth Collection - a set of prefabricated modular booths designed for optimal acoustic performance. Our booths provide a quick, simple and affordable solution to the lack of privacy common in workspaces.

WHY KUBEBOOTH

1 PRIVACY

With a certified sound insulation of *36dB*, we can honestly say that we provide you with the best system that guarantees privacy.

2 HIGH QUALITY

Our fabrics are made of the highest acoustic proof materials available on the market. We also conduct our manufacturing process entirely in house, allowing our team to have complete oversight over materials used.

3 FRESH AIR SUPPLY

Kubebooths have *100* air exchanges per hour with motion activated fans that ensure a safe and comfortable space to work.

4 MADE IN CANADA

We take pride in being fully manufactured in Canada, allowing us to be fully involved in the Kubebooth process - from manufacturing all the way to delivery.

5 CUSTOMIZABLE

We provide a wide variety of exterior and interior finishes, allowing you to truly personalize your booth and match the aesthetic of your workspace.

6 PORTABLE

All Kubebooths come equipped with hidden casters to enable quick changes in a fast-paced world.

7 RAPID LEAD TIME

Thanks to our hard working team, we are thrilled to promise a lead time of 3-4 weeks.

Financing options available.
