

A modern lounge interior featuring a large blue modular sofa in the foreground. In the background, a woman with blonde hair and glasses sits in a red armchair, looking at a device. The room is decorated with several copper-colored spherical pendant lights hanging from the ceiling. A wall of vertical wooden slats and a large potted cactus are also visible. The floor is made of light-colored wood.

Benching Systems

Service Spine (Beam) Systems

Answer Panel Systems

Answer Panel System is part of a family of products designed to support both individuals and groups, in resident and nomadic settings, with the flexibility to adapt and evolve as the needs of your organization, your people, and your culture shift.

Product Highlights

Adapt Over Time

Answer panel settings are created from a dynamic frame that allows you to change your space as your needs change.

Maximize Real State

The Answer panel frame supports extensive integration of storage and worksurfaces to efficiently support you and your work in exactly the footprint you need.

Answer Panel specification details

Click on “Answer Spec Guide”

Montage Panel Systems

Montage is a refined, architectural culmination of all that we at Steelcase have learned about work and the workplace. Montage offers a breadth of surface material options, is highly customizable and features a superior fit and finish.

Product Highlights

Choose Your Space

- Stackable and destackable frames allow for varying levels of visual and acoustical privacy.
- Hinged or pocket doors are available for spaces where additional privacy is needed.

- Features like frameless glass dividers, full-height tiles that don't require base trim, and extended top caps that minimize seams help you customize your space even more.
- Available in monolithic and tiled options.

Montage Panel specification details

Kick Panel Systems

Kick’s simple design allows you to build a variety of spaces that blend together, both aesthetically and functionally.

Product Highlights

Key Benefits

- Applications ranging from panel based to open plan environments using Kick systems and Kick freestanding.
- Blend of open collaboration with low panels and full glass panels to enclosed privacy with tall panels, stackers and a sliding door option.

- Thin profile is perfect for high density areas where optimization of real estate is a critical business issue.
- Simple product design that allows for quick adds and changes to an application.

Phone Booths and Pods

Phone Booths

Individual Lounge Pods

Individual Work Pods

Group Work Pods

Orangebox On the QT

Connect in privacy, carry out focused work or simply think for a while, On the QT phone booths strive to strike the balance between the need for efficient space and workable comfort.

Product Highlights

Ventilation

- The dual-fan ventilation system pulls fresh air in and removes stale air for improved air circulation, offering more comfort and focus.

Built-In Power

- Easily accessible dual-power plugs offer additional USB-A and USB-C ports for more productive power.

On the QT specification details

Click on “Orangebox Spec Guide”

Orangebox Air3

Air3 acoustic pod range can act as a freestanding meeting room, private space, phone booth or touchdown room.

Product Highlights

All About Acoustics

- Acoustic tempered glass and engineered seats balance out speech frequencies, while soft paneling inside and out absorbs and blocks sound.

Lighting

- Auto-sensor lighting turns on/off when you enter/exit the pod, and you have the option to adjust between three lighting settings: work, think, or present.

Air3 specification details

Brody WorkLounge and Desk

Brody WorkLounge & Desk creates a comfortable microenvironment so users can focus their attention, get into flow, and get work done.

Brody specification details

Click on “Brody Spec Guide”

Product Highlights

Designed For Business

- A smart alternative to enclaves, the Brody WorkLounge is a private lounge chair that transforms under-utilized in-between spaces into covetable destinations.

High Performing Private Workstation

- As dedicated spaces for resident workers in open-plan offices decrease and commons areas increase, Brody Desk provides people with moments of focus in high traffic settings.

Lagunitas Focus Nook

Lagunitas Focus Nook offers users a touch-down destination for doing focused tasks in a traditional work posture — optimizing space within the open plan, while staying centered and free from distraction.

Product Highlights

Focus On Work

- The Focus Nook offers enriched color and warm design to invite more expression in the open plan. Drop a single nook next to a social area or add a row of nooks adjacent to collaborative spaces, for the freedom to focus in the modern work mix.

Options

- Available in a breadth of materials and finishes that invite expression including screens that are available in fabric or 17 knit colors, and worksurface finish options in veneer and laminate.

Lagunitas Focus Nook specification details

Campfire Big Table Meeting & Console Tables

Inspired by our favorite gathering places, Campfire Big Table draws people together, anchors spaces, and brings people together for project work, impromptu meetings and team celebrations.

Product Highlights

Versatile

- The Campfire Big Table can be specified in seated (28") or standing (40") height and seats 6 comfortably. There is a full surface available with optional pop-up power access.

Half The Size, Twice The Possibilities

- Measuring only 24", Half Depth Big Table is literally half as deep as our standard 48" Big Table. Its sturdy design creates standing or sitting height workstations or console tables against walls and in hallways, offering enough worksurface for up to three people.

Mackinac

Like the Michigan bridge that inspired its name, Mackinac helps people connect and easily navigate from activity to activity. Distinct microzones support focused work, small group collaboration and privacy for rejuvenation.

Product Highlights

Beauty and Function

Created with beauty and function in mind. Designed with a height-adjustable cantilevered worksurface for easy collaboration, microzones for quick shifts between activities and a wide array of materiality for personal expression, Mackinac allows you to imagine your best day ever.

For All the Ways you Work

Mackinac creates microzones where people can easily transition between work modes – from working alone to working with others, or a quick moment of respite – reducing the time they spend looking for just the right place to work.

Solo Sit-to-Stand Desk

Solo Sit-to-Stand Desk rises above the rest. Designed to support workers dynamically at the home or small office, Solo comes with just the essentials.

Product Highlights

Sitting. Standing. Simplified

Every aspect of Solo Sit-to-Stand Desk was designed to promote movement and wellbeing, including the Simple Touch controller, which allows you to effortlessly move without taking your eyes off your work.

Easy Assembly

Solo uncomplicates the standing desk experience. Most of the work is already done when your desk is delivered – all you need to do is attach the legs, plug into power, and you are ready to work – all in five minutes or less.

cobi

The cobī office chair by Steelcase was designed to foster collaboration and promote movement, creating a perfect solution for meetings and conference rooms.

Product Highlights

Flexibility

With its insightful and ergonomic design, the chair's top flexing edge lets you comfortably rest your arm on top of the chair—you know, like you've tried to do on every chair you've ever sat in. The flexing seat encourages you to move and shift, allowing you to sit centered or off to the sides.

Automatic Comfort

When you first sit in cobī, it senses your center of gravity and adjusts to the position that will put the least amount of stress on your body, while still keeping you properly oriented and supported. When you shift or move, cobī does the same.

Learn more about [cobī](#)

Gesture

Gesture redefines the relationship between you and your chair. Voted best office chair, its 360-degree arms, contoured back and adjustments are designed for all the ways technology shapes your posture.

Product Highlights

Acclaimed Movement

Designed for all the ways technology shapes your posture, Gesture supports the largest range of postures and users – so you can sit all day without feeling like you sat all day. Gesture offers best-in-class features and performance.

Best-in-Class Performance

Gesture encourages movement and supports the greatest range of postures in three ways: through the back, the seat and the arms. With 3D LiveBack®, Gesture mimics the natural motion of the spine contouring to the user, creating the deepest recline.

Learn more about [Gesture](#)

i2i

i2i has shifted out of our collaborative portfolio into our lounge portfolio. It is a lounge product that still encourages collaboration.

Learn more about [i2i](#)

Product Highlights

Collaborative Seating

The i2i chair was designed to foster collaboration. Users are able to stay engaged as they retain eye-to-eye and eye-to-information contact thanks to the unique i2i dual swivel mechanism.

Automatic Comfort

i2i moves with the body as the user shifts through various postures. Each time the user moves, the flexing fingers of the back give appropriate support according to the position of the user. With no adjustments, i2i allows users to get comfortable quickly and stay engaged in their work.

Steelcase Karman

Sit back and let physics do its job. With a proprietary performance textile and impossibly light frame, Steelcase Karman goes beyond leading mesh office chairs to provide effortless comfort.

Learn more about [**Karman**](#)

Product Highlights

Beyond Comfort. Beyond Mesh.

Steelcase Karman goes beyond leading mesh office chairs with 21st century design that naturally responds to a body's movement, delivering industry-leading comfort, ergonomics and sustainability.

Breakthrough Comfort

Steelcase Karman's patented hybrid seat is unlike any other. The suspension seat with integrated cushioning provides maximum comfort for as long as you sit. The ultra-light frame flexes to eliminate painful pressure points common in other mesh chairs.

Leap

Leap lets you dial in a precise fit in all the places you need it most. It’s highly intuitive and you’ll love the way the seat glides back and forth as you recline, keeping you connected to your work.

Product Highlights

Absolute Adjustability

Leap was designed to fit each unique body and balance the need for stability and support and freedom of movement.

Proven Performance

Leap owns a reputation as our most adjustable chair, providing customizable support whatever your body shape or style of work. It’s also a proven productivity booster. In fact, in an independent health and productivity study, we saw a 17.8% increase in productivity for one group after a year.

Learn more about [Leap](#)

Header Text – Remove if Not Needed

Leap Plus

The Leap chair is a proven technology... a healthier way to sit. The Leap chair has also been proven to have a positive impact on employee productivity.

Product Highlights

Movement

Moving throughout the day helps keep us refreshed and energized. Leap’s LiveBack® changes shape to fully support your upper and lower back and the mechanism enables you to fine tune the precise amount of recline force you desire encouraging movement and postural change.

Fit

Your body is unique. You need a desk chair that easily adjusts to fit you, your preferences, and how you work. Leap’s adjustments were designed to be intuitive and easy for users to reach, making it easy to customize the chair’s comfort to your needs.

Learn more about [Leap Plus](#)

QiVi

QiVi office chairs promote movement and collaboration while supporting a variety of postures, making QiVi perfect for meetings and conference rooms.

Product Highlights

Optimized Comfort, Enhanced Collaboration

People don't just sit in meetings. They interact, brainstorm and create. QiVi, an intelligently designed collaborative office chair, encourages movement, supports multiple postures and provides comfort for extended periods of time—fostering collaboration in a variety of settings.

Comofrtable Collaboration

Collaboration is increasingly common in the workplace. Based on three key observations and insights, QiVi was designed as an ergonomic chair to increase comfort in conference and meeting rooms.

Everwall™

Everwall is a prefabricated wall system offering the right balance of acoustic performance, aesthetic options and price. It combines design freedom with one of the fastest installations in the industry to delight both designers and installers.

Product Highlights

Ever Fast. Ever Flexible.

Everwall offers one of the fastest install times in the industry. Its hybrid-unitized design is the basis for an intuitive and predictable installation.

A Sustainable Solution

Everwall is advancing positive environmental change as a force for better in the built environment. It was designed for sustainability and the principles of reduce, reuse, and recycle.

Learn more about [**Everwall**](#)

Glass Selections

Glass Selections creates sleek spaces with anodized aluminum frames for a slim profile and luminous look. Designed with flexibility for future moves in mind, this modular solution is made for fast and easy planning, installation and reconfiguration.

Learn more about **Glass Selections**

Product Highlights

Make It Yours

Glass Selections works with a range of glass types, including tempered and laminated glass. Add Casper™ Cloaking Technology to obscure digital screens while maintaining clear, open views.

Significant Savings

Speed the schedule and shrink the budget. Glass Selections saves up to 16% in costs and 25% in installation time compared to traditional construction. As a modular solution it also depreciates faster than drywall, so you see tax benefits sooner.

Header Text – Remove if Not Needed

Lite Scale

Lite Scale Glazing is a ½” glass solution with a minimalist recessive design meant to integrate with our other modular wall systems along with traditional construction.

Learn more about **Lite Scale**

Product Highlights

Pass on Posts

With Lite Scale, glass meets at the corners – whether T-shaped, L-shaped or custom angle – without the need for vertical posts. This butt glazing solution also allows you to create long runs of virtually seamless glass.

Style & Value

As a modular solution it also depreciates faster than drywall, so you see tax benefits sooner. Redesigned, one-piece tracks create a cleaner aesthetic that allows large expanses of glass to run uninterrupted by frames.

Privacy Wall

Seamless Flexibility in Moveable Walls

Privacy Wall is a high performance, moveable wall that gives you the flexibility and modularity to accommodate today's needs, while also planning for the future.

Product Highlights

Flexible

- Unitized panels help accelerate construction schedule
- Modular flexibility allows for quick, easy installation and reconfigurations
- Minimal kit of parts simplifies asset management

Sustainable

- First and only Cradle to Cradle Certified™ Silver relocatable wall product, and the only one manufactured in North America
- Made with 44% recycled content, is 63% recyclable and 100% reusable

Turnstone Clipper

A portable, user-deployable screen designed to provide on-demand privacy for teams and individuals. To create an environment conducive to concentration, Clipper's tackable fabric panels help absorb sound while maintaining visual privacy.

Learn more about **Clipper**

Product Highlights

Applications

Designed with collapsible wings and a magnetic closing system, Clipper opens in seconds and folds flat for easy storage. Line them up for multiple havens, arrange several together for small group work spaces or place individually for added privacy.

Relax in Quiet Comfort with Clipper

Clipper solves the need for on-demand visual privacy in the midst of distracting environments. Use one Clipper alone for a quiet solo escape, or pair several together for group collaboration. With Clipper, it's easy to rearrange your space based on immediate needs.

Sticks Divider

Sticks are the ideal way to create privacy, while keeping an open flow. They add an architectural effect to any indoor space, and, because they're totally weatherproof, they're suitable outdoors on the balcony or patio.

Learn more about **Sticks Divider**

Product Highlights

Aesthetic Privacy

Sticks create an optical division while keeping an open flow.

Shielded in the Open

Sticks add an architectural effect to any indoor space, and, because they're totally weatherproof, they're suitable outdoors on the balcony or patio.

Steelcase Flex Acoustic Boundary

The multi-use acoustic boundary is a necessity in any busy team space. It provides acoustic performance, space division and a visual display area.

Learn more about **Flex Acoustic Boundary**

Product Highlights

Organic Pattern

Light or dark grey heather PET with a fluid, organic pattern provides a natural vibe to your work environment.

Clips

Integrated clips allow you to display markerboards vertically or horizontally.

PolyVision Sans

Sans is a fan favorite for many PolyVision customers. By popular demand, PolyVision has expanded the Sans collection to include Sans Light include – a lighter, thinner, frameless writing board.

Product Highlights

Sans, the original frameless CeramicSteel whiteboard, sits at 0.51” thick, while Sans Light is about half the depth of the original Sans. This thinner profile is comparable to the typical 0.25” standard glassboard offering, providing a similar but more durable option for customers than glassboards.

Sans and Sans Light have clean, lacquered edges. Both can be configured in horizontal and vertical orientations with simple z-brackets and are available in a variety of sizes and colors ideal for the modern workplace.

Steelcase Roam Collection

Co-developed with Microsoft, the Roam system of mobile stands and easy-to-install wall mounts support large-scale collaboration.

Product Highlights

Bring Remote Teams Together

Bring remote teams together and enable large-scale teamwork where everyone can be seen, heard and actively participate in meetings – whether they’re together or apart.

Support Flexibility

The intentional design of the Roam Collection system of wall mounts and mobile stands provides the flexibility to support a variety of devices, to move and adapt in space and empower teamwork to happen wherever ideas do: anytime, anywhere, any way.

Sarto Screen

Sarto Screens are an attractive way to create visual separation across the open office. Sarto can be added to spines, benches and desks to punch up privacy and style.

Product Highlights

Infinite Configurability

The straight Sarto screen provides light privacy on a single side. The curved Sarto screen wraps around the corner of the desk to shield front and periphery views. In high-density spaces where workers may feel overexposed, the continuous curve offers added shelter to support concentration.

Privacy and Protection

The 24- and 36-inch privacy screens provide privacy and additional protection in the workplace. With new offset bayonets, Sarto privacy screens create desk wrap applications while maintaining recommended pinch point clearances.

SOTO Chargers

SOTO® Wireless Charger
and USB Charging Hub power
personal devices quickly and
conveniently no matter where
people are working.

Learn more about **SOTO Chargers**

Product Highlights

SOTO Wireless Charger

SOTO Wireless Charger uses wireless charging technology to power mobile phones. The cork surface provides a soft landing spot for your phone, and it's angled to provide visibility at all times. Optional cork pedestal adds additional articulation.

SOTO USB Charging Hub

SOTO USB Charging Hub mounts under existing worksurface. It features two ports, UBS-C (60W max.) and USB-A (2.4A max.), enabling it to discretely charge two devices at a time, including a USB-C-compatible laptop, tablet or mobile phone.

SOTO Worktools

SOTO™ is a collection of connected worktools. The entire collection works as a cohesive set of tools which are designed to link work, workers and the workplace.

Learn more about **SOTO Worktools**

Textura Mobile

Blend sound-diffusing
acoustic panels with durable
CeramicSteel writing surfaces
for a multi-purpose
collaborative worktool
on wheels.

Learn more about **Textura Mobile**

Product Highlights

Safety & Privacy

Create separate spaces and barriers between workers or students, place multiple dry erase boards together for larger brainstorming sessions, relocate for impromptu collaboration, or effortlessly store it out of the way to save on space.

Acoustics

Privacy and quiet can be hard to find in any office. Textura Mobile muffles the masses for enhanced focus time and more private meetings.

Steelcase Work Tents Collection

A collection of versatile privacy solutions inspired by tents, designed for the workplace. From simple screens to small enclosures, Work Tents provide privacy and shelter in the office -- in an unexpected and delightful way.

Learn more about **Work Tent Collection**

Product Highlights

Shelter & Privacy

Work Tents provide shelter and protection to people at work from common distractions such as noise, stress and other people – providing psychological comfort.

Versatile & Flexible

Compatible with existing furniture, Work Tents are easy to drop into any space giving people control to choose their desired amount of privacy. Easily moved, Work Tents allow the workplace to adapt to changing conditions and needs.

Empath

The Empath recliner is a crucial step forward in the health process – one developed entirely from real-world insights based on thousands of hours of observation and analysis. Its design considers the needs of both patients and clinicians as primary users.

Learn more about [Empath](#)

Product Highlights

Patient & Clinician as Primary Users

Our research revealed that clinicians' top concerns are keeping patients comfortable and safe while promoting overall quality of care. Empath is designed to meet these needs and help empower patients and clinicians alike.

Minimize Strain & Stress

For clinicians, moving patients from bed to chair is inherently difficult due to patient limitations and the number of times these transfers are performed. Empath eases this process.

Embold Collection

Embold gives organizations the flexibility to adapt waiting spaces over time to meet changing needs. With its consistent design aesthetic, Embold can be used across a healthcare system from clinical waiting spaces to office and administrative areas.

Learn more about **Embold Collection**

Product Highlights

Versatile

Accommodate a variety of seating needs with Embold seating for 1-4 people. Occasional tables with optional integrated power provide a place for electronics and personal belongings.

Expressive

Embold's unified design language and range of available surface materials encourages creativity and the creation of unique and inviting spaces.

Convey

Convey Modular Casework provides an elevated level of choice, quality and design flexibility.

Product Highlights

Flexibility

Components align along a continuous rail and micro-adjust for a perfect fit. Precision engineering enables consistent, flexible performance across a variety of settings, floors and facilities. As needs change, Convey adapts.

Designed for Health

With supplies and utilities in easy reach, clinicians can focus on patients and families. White interiors increase visibility for cleaning. Soft-close hinges prevent pinches and keep noise levels low.

Learn more about **Convey**

Agree Tables

Engaged and collaborative learning starts here. Agree by Smith System is a curated collection of classroom tables designed for active learning environments where flexibility and student engagement are essential.

Learn more about [**Agree Tables**](#)

Product Highlights

Simple to Rearrange

Whether students are working on their own, in a small group or in lecture mode, smooth rolling casters or table glides make it easy to reconfigure active learning spaces to support any learning mode.

Intentional Table Shapes

Keystone and chevron table shapes form a soft arc with clear sightlines between students when arranged in lecture mode, while trapezoid tables can be combined and reconfigured for interesting zones and versatile layouts that support the flow of active learning. ADA-compliant, the large personal table (24" x 40") is an accessible option for all learners.

Elbrook

Move. Gather. Learn.

With Elbrook, learning flows naturally. Worksurface shapes were designed to accommodate students' belongings, like laptops, phones and water bottles, while the inset legs and low-profile bases reduce barriers so students can move around with ease.

Learn more about **Elbrook**

Product Highlights

Active learning is best supported in open, free-flowing environments. So we created Elbrook—a collection of organically shaped tables with inset legs and low-profile bases that make movement throughout a space easy, so everyone can focus on what matters most—learning.

Max-Stacker III

Max-Stacker III offers proven performance and durability in a stackable chair. With a wide range of colors and finishes, it seamlessly integrates with today's Steelcase furniture for a cohesive design aesthetic.

Product Highlights

Backrest

Backrest is .146" thick molded polypropylene with a textured face surface. The molded contour includes a cylindrical cavity on each side which slips over the upright back members of the wire frame. The bottom edge of the back is contoured to fit over the wire frame.

Seat

Seat is .146" thick molded polypropylene with a textured face surface. The front edge of the seat is molded to hook over the front frame wire. The side and back contours coincide exactly with the shape of the frame.

Node

The Node chair is mobile and supports all the ways students learn. It's designed for quick, easy transitions in the classroom, and to support learning modes across the campus.

Product Highlights

A Smart Solution

Node school chairs are highly mobile —a quality that translates directly into classroom performance. After all, a lesson plan can be carried out more effectively when seating is arranged and rearranged effortlessly.

Versatile Seating

Node's versatility and mobility also make it a perfect addition to corporate learning spaces.

Learn more about **Node**

Tenor

Flow. Stow. Stack.

The Tenor chair lets students easily adapt to any learning mode. Chair and stools provide comfort and versatility when sitting, stacking and stowing—to help students thrive in today’s ever-changing learning landscape.

Product Highlights

Flexible Back

Enables micro-movements and the comfort edge on the seat back lets students comfortably rest their arm on top of the chair in any posture they choose.

Intuitive Bag Hook

Keeps belongings accessible and bags off the floor—freeing up space and making it easier for students and instructors to transition between group, lecture and breakout modes.

Verb

Verb is an integrated collection of classroom furniture including tables, whiteboards, and instructor lectern and desk stations designed to support a full range of teaching and learning styles.

Product Highlights

Ongoing Research

Our human-centered design research at schools, colleges and universities across the U.S. and Canada shows that while active learning is increasing, classrooms often prevent students and instructors from making the most of collaborative learning.

Mobile & Versatile

Static furniture creates barriers to communication, limits movement, discourages collaboration and detracts from the learning experience.

Learn more about **Verb**

Verb Whiteboard

Verb is an integrated collection of classroom furniture including tables, whiteboards, and instructor stations designed to support a full range of teaching and learning styles.

Verb Whiteboards and hooks are available for Agree Tables.

Product Highlights

The Verb whiteboard is the foundation for collaboration, display and presentation in the classroom, perfect for active learning.

The small dry erase boards are ideal for personal use, but large enough to share and work with a team, making collaboration more natural. And by simply placing a Verb whiteboard in a table dock, students gain privacy for test time or focused work.
