ALLSEATING CATALOGUE

ROTARY CONFERENCE CHAIRS

Our conference solutions are designed to intuitively support multiple users – and make the boardroom look and feel anything but boring.

CONFERENCE

Conference seating may seem straightforward, but there's still an opportunity to sit fit.

1. SUPPORT YOUR BACK

Make sure that your hips are pushed as far back in the chair as they can go, while actively making an effort to sit straight, yet comfortably and relaxed. By keeping your spine supported by the chair, your ribs can move more freely – making breathing easier and keeping your energy up!

2. FIRM FEET ON THE FLOOR

Create a solid support beneath each of your legs. Crossing your legs may feel comfortable, but it can cut off the circulation and strain your hips.

3. LOOK FORWARD, NOT DOWN

Confidence in the boardroom is not just good for your career; it's good for your health! Maintaining eye contact with your colleagues keeps your neck in a more natural position and reduces strain on your back.

MAKE AN IMPRESSION

The goal of conference seating is to make a statement, inspire engagement, and solve challenges collaboratively.

INERTIA MESH MIDBACK

With Breathable Back and Fabric Seat
8 Mesh Colours Available
Synchro Tilt Mechanism (Concurrent)
Model No: 77040-CA
